MAHLE Thermonator Truck on Tour

MAHLE will go on a European tour starting May 21, 2025, and the music is all about thermal management. The company will showcase thermal management systems for batteries, efficient drives, and sophisticated cabin comfort in a show trailer with an area of 60 square meters. The truck combines products from the original equipment business, such as the bionic battery cooling plate, with the wide range of the MAHLE service and spare parts business. The spacious “MAHLE Pit Stop” outdoor area encourages in-depth discussions. The tour starts with Autopromotec in Bologna, Italy, the international trade fair for automotive equipment and the automotive aftermarket. To experience the future of thermal management live, all tour dates can be found at [Thermonator Tour | MAHLE Aftermarket Europe](#).

About MAHLE Lifecycle and Mobility

MAHLE Lifecycle and Mobility, the spare parts and service business unit of the MAHLE Group, supplies partners in trade, workshops, engine repair shops, and e-commerce worldwide. The proven product range covers the entire product lifecycle of a vehicle along the MAHLE strategic fields of electrification, thermal management, and efficient, sustainable combustion engines. MAHLE Lifecycle and Mobility uses the expertise from original equipment series production. In addition, the MAHLE Service Solutions business segment develops products for workshop equipment, such as vehicle diagnostics, battery or air conditioning service, and offers technical support and individual training programs.

MAHLE Lifecycle and Mobility operates out of more than 30 locations and additional sales offices in 23 countries with more than 2,060 employees. In 2024, the business unit generated a global sales volume of EUR 1.3 billion. (as at: 12/31/2024)

About MAHLE

MAHLE is a leading international development partner and supplier to the automotive industry with customers in both passenger car and commercial vehicle sectors. Founded in 1920, the technology group is working on the climate-neutral mobility of tomorrow, with a focus on the strategic areas of electrification and thermal management as well as further technologies to reduce carbon emissions, such as fuel cells or highly efficient, clean combustion engines that also run on renewable fuels, such as hydrogen. Today, one in every two vehicles globally is equipped with MAHLE components.

MAHLE generated sales of €11.7 billion in 2024. Employing just under 68,000 people at 135 production locations and 11 technology centers, the company is represented in 28 countries. (as at: 12/31/2024)
