## MAHLE receives Nissan Supplier Award for Leadership in Sustainability

- MAHLE earned recognition from Nissan North America based on its global sustainability performance
- The accolade highlights MAHLE's proactive efforts for climate protection in its product portfolio as well as in its plant operations
- MAHLE was one of only two companies to receive this honor

**MAHLE is proud to announce it has been awarded the Leadership in Sustainability Award from Nissan. Nissan North America recognized regional suppliers that have achieved high scores in sustainability assessments and have demonstrated commitment through their actions and best practices. This award is based on the rating by EcoVadis, the leading independent provider of company sustainability ratings, and a testament to MAHLE's commitment to creating a sustainable future mobility through innovation and responsible processes. Peter Lynch, Vice President Sales Engineering and President MAHLE North America, and Ricardo Tavolari, Head of Asian Sales Engineering at MAHLE, accepted this award. Presented at Nissan's annual Supplier Appreciation Event in Nashville, TN on September 25, the accolade highlights MAHLE's proactive efforts to reduce carbon emissions, improve energy efficiency, and sustain a future of mobility across its global operations.**

"Receiving Nissan's Supplier Award for Leadership in Sustainability is a tremendous honor and mirrors the hard work and vision of our MAHLE sustainability teams," said Peter Lynch. "Sustainability is not just a goal—it's a responsibility we embrace every day. MAHLE is proud to drive towards ambitious environmental targets and contribute to a more sustainable future for the automotive industry".

Sustainability serves as a key strategic enabler for achieving the group's MAHLE 2030+ strategy, and beyond its own operational activities, MAHLE is committed to contributing to climate protection through its innovative products.

Nissan's Supplier Award for Leadership in Sustainability is part of the automaker's broader commitment to a sustainable future by driving innovation,

which aims to create a cleaner and safer tomorrow. MAHLE's collaboration with Nissan exemplifies how strong partnerships can accelerate progress toward a cleaner and more efficient future.

## About MAHLE

MAHLE is a leading international development partner and supplier to the automotive industry with customers in both passenger car and commercial vehicle sectors. Founded in 1920, the technology group is working on the climate-neutral mobility of tomorrow, with a focus on the strategic areas of electrification and thermal management as well as further technologies to reduce carbon emissions, such as fuel cells or highly efficient, clean combustion engines that also run on renewable fuels, such as hydrogen. Today, one in every two vehicles globally is equipped with MAHLE components.

MAHLE generated sales of €11.7 billion in 2024. Employing just under 68,000 people at 135 production locations and 11 technology centers, the company is represented in 28 countries. (as at: 12/31/2024)
